

UP TO 15 SEER PERFORMANCE

Air Conditioning & Heating

# SSX14 HIGH-EFFICIENCY AIR CONDITIONER

Energy Star ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the Energy Star designation get complete information at [www.energystar.gov](http://www.energystar.gov).

**Thank goodness for Goodman.®**

Air Conditioning & Heating

## ENERGY EFFICIENCY

As the owner of a high-efficiency Goodman® brand SSX14 R-410A Air Conditioner, you have made one of the best purchasing decisions possible in the HVAC marketplace. At Goodman, we strive to build heating and air conditioning equipment that offers high performance, energy efficiency, durability, and an environment-complementing design – all at a price that will have you saying **“Thank goodness for Goodman®.”**

In particular, your Goodman brand SSX14 Air Conditioner will provide you with reliable cooling at money-saving energy efficiency levels as compared to lower SEER air conditioning units.

## COMFORT. SAVINGS. PERFORMANCE.

### ENJOY THE COMFORT

You can count on your Goodman brand SSX14 R-410A Air Conditioner to keep you cool on even the hottest summer days. The high-efficiency compressor operates in tandem with a high-efficiency coil, cooling your home effectively.

And if that’s not enough, Goodman goes one step farther: we install a liquid-line filter dryer in every air conditioner we build. The filter dryer prevents moisture and debris from entering the compressor motor and expansion device, thus helping to extend the life of the system. Many manufacturers leave this step out, but we install filter dryers in all of our air conditioners.

### RATING YOUR COMFORT

When properly matched and installed, your Goodman brand SSX14 Air Conditioner delivers a performance up to 15 SEER. Air conditioners with higher SEER represent more energy efficient operating levels compared to lower SEER units. In short, as the SEER increases so does the unit’s energy efficiency rating. In many applications, the efficiency of your air conditioner can be enhanced by using it in conjunction with a Goodman brand variable-speed gas furnace.

**The use of Goodman’s SmartCoil 5mm tube condensing coil design optimizes the heat transfer ability of R-410A refrigerant compared to standard 3/8” copper tubing.**

### SMARTCOIL™ TECHNOLOGY SMALLER IS SMARTER

Long ago the HVAC industry determined that the combination of copper tubing and aluminum fins provided the most efficient transfer of thermal heat available. Today, the Goodman brand has improved upon this industry standard by making the condensing coil copper tubing smaller and smarter. The result is an air conditioning unit that can offer high efficiency, use less refrigerant, and deliver money-saving and energy-saving comfort to you for years and years.

### R-410A REFRIGERANT

Compared to lower SEER, R-22 refrigerant units, your new Goodman SSX14 air conditioner system will not only provide you with money-saving cooling performance for many years, but it also features R-410A refrigerant. Since this refrigerant does not contain chlorine, it is environmentally-friendlier than R-22 refrigerant, which is currently used in most air conditioning systems.

Introduced in 1995, R-410A refrigerant has helped increase the durability and reliability of air conditioner compressors. Effective January 1, 2010, all manufacturers must use R-410A refrigerant in all charged units.

## IMPRESSIVE FEATURES & BENEFITS: GOODMAN® BRAND SSX14 R-410A HIGH-EFFICIENCY AIR CONDITIONER

- 10-Year Parts Limited Warranty\*
- A high-performance, high-efficiency scroll compressor with a Lifetime Compressor Limited Warranty\* for as long as you own your home
- 5mm SmartCoil™ condenser coil in select models
- A factory-installed in-line filter dryer
- A louvered cabinet made of heavy-gauge galvanized steel that protects the coil, while its appliance-quality, post-paint finish resists the effects of weather and time
- Compressor sound cover
- An 850-RPM motor; a three-bladed fan; and a louvered sound-control top – all of which add up to quieter system performance
- A high-efficiency condenser coil made of corrugated aluminum fins and rifled refrigeration-grade copper tubing
- An attractive design, finished in an architectural gray color that complements any home environment
- Performance certified in accordance with the air conditioning, Heating and Refrigeration Institute (AHRI)

Talk to your Goodman dealer about opportunities to optimize the efficiency of your new unit.

### OUTSTANDING WARRANTY\* PROTECTION

10-Year Parts Limited Warranty\*

Lifetime Compressor Limited Warranty\*

\* Complete warranty details available from your local dealer or at [www.goodmanmfg.com](http://www.goodmanmfg.com). To receive the 10-year Parts Limited Warranty and Lifetime Compressor Limited Warranty good for as long as you own your home, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

#### ADDITIONAL INFORMATION

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.
